

## The Iowa Statewide Assessment of Student Progress

### Student Honor Code - 2024

Student assessments are used throughout the school and community to make critical decisions about Colfax-Mingo Community Schools' performance and needs. They are an essential tool to measure and monitor student learning and provide feedback to students, educators, parents, and the community. To ensure that these assessments are fair for all students and that the results are reliable, students need to follow specific guidelines while testing.

1. Help create a testing environment that is safe and allows all students to do their best.
2. Follow all directions for your testing sessions.
3. Power off all personal electronic devices before testing and leave them turned off throughout the testing period.
4. Have a positive attitude about your performance on these assessments.
5. Prohibited behaviors that include but are not limited to:
  - a. Assisting to or accepting assistance from other students, including copying answers, using prearranged signals to provide answers, sharing used scratch paper, etc.
  - b. Discussing test items or responses with students who have not yet tested.
  - c. Sharing test tickets or retaining tickets or scratch paper after testing.

Your commitment to following this honor code will help ensure that we have a safe and purposeful testing environment. If the information gained through the Statewide Assessment is reliable, it will help inform educators and the community about our successes and areas to improve.
